# Soaring into Success Summer Passport

**Entering 3rd Grade**

This passport belongs to:

Entering \_\_\_\_ Grade

Date of Issue: 14 JUN 2023

Date of Expiration: 29 AUG 2023

### Thomaston Summer Passport

Welcome to the Thomaston Summer Passport! Your math and reading adventures around town await!

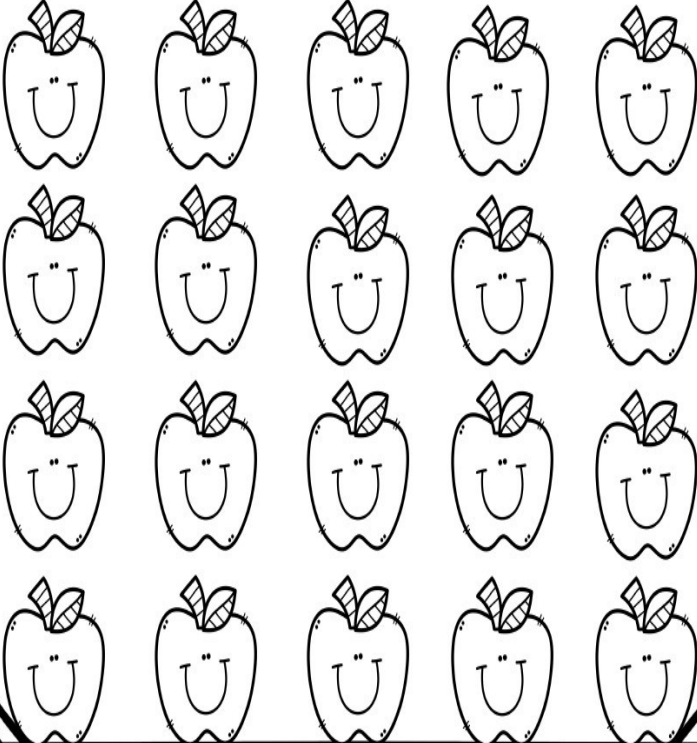

1. Work together with an adult, peer, independently to solve the problems and complete the tasks.
2. Record your thinking and solution in the space provided in this Passport.
3. If you are able to visit the passport location, you will receive a stamp for completing your work. You will also be able to see and read the book for that location.

Students who complete the entire Passport will receive special recognition!

**How many cupcakes will you have if you have 3 boxes of cupcakes and each box holds 24 cupcakes? Show your work.**

**During a busy day, the Thomaston Police Department decided to order coffee and donuts from Tony's. They ordered two boxes of coffee and 4 dozen donuts. The coffee cost \$21 per box and a dozen donuts cost \$17. How much did they spend on coffee and donuts, is the amount even or odd? If they paid with \$200, how much change would they get back?**

Use the QR Code below for more activities to get you ready for 3rd grade!

### Using Picture Graphs

Karin asks her friends: *What is your favorite cupcake?*

Then she makes this picture graph.

1 How many friends choose Vanilla?  
\_\_\_\_\_

2 How many friends choose Chocolate?  
\_\_\_\_\_

3 Complete the equation to show how many friends choose Vanilla or Chocolate.  
\_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_

4 How many more friends choose Funfetti than Red Velvet? \_\_\_\_\_

5 How many fewer friends choose vanilla than chocolate? \_\_\_\_\_

6 How many friends choose Chocolate or Red Velvet? \_\_\_\_\_

7 How many more friends choose Chocolate than Red Velvet? \_\_\_\_\_

8 How many fewer friends choose Chocolate than Funfetti? \_\_\_\_\_

9 Karin asked 17 friends to name one favorite cupcake. Is this correct? Explain.

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

## Famous Chocolate Maker

### Introduction:

- When was Milton Shaveley Hershey born?  
\_\_\_\_\_
- What state was he born in?  
\_\_\_\_\_
- Can you find it on a map?  
\_\_\_\_\_
- Why didn't Milton finish school?  
\_\_\_\_\_
- What jobs do you have to do at home? \_\_\_\_\_

## Early Life

- When did Milton work as an apprentice to a Candy maker?  
\_\_\_\_\_
- Someone who learns a trade or Craft by working with a skilled person is called an \_\_\_\_\_.
- When Milton was 28, he opened up his first \_\_\_\_\_.
- He sold it in 1882 and moved to \_\_\_\_\_.
- If you had a Candy shop, what would you sell in it? \_\_\_\_\_

## Life's Work

- Milton's dream came true!!
- He was making chocolate by \_\_\_\_\_.
- Whom did Milton get married to in 1898?  
\_\_\_\_\_.
- What was invented in 1900? \_\_\_\_\_
- What is your favorite Candy bar and why?  
\_\_\_\_\_  
\_\_\_\_\_

You Get More *When You're Next Door*™

## Gold Rush

2-4 Players or Teams

Materials Needed:

Spinner Arrow or Paper Clip and a Pencil, Chips or Game pieces, and Coins.

## Directions:

- 1) Player 1 spins and moves the number of spaces indicated on the spinner.
- 2) Player 1 reads what the space says. If it says penny, nickel, dime, or quarter, use that coin and the number they spin to make their score. For example, if player 1 spun a 2 and landed on "Nickel", the score will be 10 cents.
- 3) All other players will repeat steps 1 - 2, adding scores as they travel around the board.
- 4) The game ends once all players have made it to the gold in the center of the board.
- 5) The player with the highest score wins.

## Tip:

- 1) There are two ways to keep track of amounts: Students use paper and pencil to add or subtract their money amounts.
- 2) Students use plastic coins to keep tracking of their total. Students can exchange "smaller" coins for "bigger" coins.

## Later Years

- What did Milton build near where he was born in 1903?  
\_\_\_\_\_
- He built his workers homes too. A \_\_\_\_\_ formed with schools, stores, and a zoo.
- In 1905, the town was named \_\_\_\_\_.
- A \_\_\_\_\_ is a building where products are made in large numbers.
- What would you name your town?  
\_\_\_\_\_

## Contributions

- Milton Cared about people and gave a lot of his money to what?  
\_\_\_\_\_
- An organization that raises money to help people in need is called a \_\_\_\_\_.
- When did Milton die?  
\_\_\_\_\_
- \_\_\_\_\_ means to travel to different places for sightseeing.
- Millions of people \_\_\_\_\_ his factory and \_\_\_\_\_ his town.
- His chocolate is still loved around the world.

One pound of bananas cost 79 cents. What coins could you use to buy one pound of bananas? How many coin combinations can you come up with?

Look at the hundred's digits in each problem. Circle those that will have a sum greater than 500. Then find the exact sums of only the problems you circled.

①	$\begin{array}{r} 435 \\ + 283 \\ \hline 718 \end{array}$	2	$\begin{array}{r} 205 \\ + 113 \\ \hline \end{array}$	3	$\begin{array}{r} 586 \\ + 130 \\ \hline \end{array}$
---	---	---	---	---	---

4	$\begin{array}{r} 378 \\ + 343 \\ \hline \end{array}$	5	$\begin{array}{r} 186 \\ + 175 \\ \hline \end{array}$	6	$\begin{array}{r} 476 \\ + 234 \\ \hline \end{array}$
---	---	---	---	---	---

7	$\begin{array}{r} 152 \\ + 169 \\ \hline \end{array}$	8	$\begin{array}{r} 214 \\ + 225 \\ \hline \end{array}$	9	$\begin{array}{r} 362 \\ + 556 \\ \hline \end{array}$
---	---	---	---	---	---

10	$\begin{array}{r} 481 \\ + 262 \\ \hline \end{array}$	11	$\begin{array}{r} 145 \\ + 239 \\ \hline \end{array}$	12	$\begin{array}{r} 347 \\ + 133 \\ \hline \end{array}$
----	---	----	---	----	---

13	$\begin{array}{r} 286 \\ + 644 \\ \hline \end{array}$	14	$\begin{array}{r} 267 \\ + 174 \\ \hline \end{array}$	15	$\begin{array}{r} 383 \\ + 319 \\ \hline \end{array}$
----	---	----	---	----	---

How do you know that  $361 + 283$  is greater than 500 without finding the sum?

Count the coins and record the amount on the line.

### COUNTING COINS

Brainstorm what your Superhero identity would be. Use the next page to showcase your superpowers and costume!

Narrator 3 Using the lid like a cookie cutter, Hanson cut the center from each blob of dough.

Ship's Cook Gregory! What kind of fool thing have you gone and done?!

Hanson Gregory Without the center to soak up the grease, these rings should cook evenly.

Sailor 1 I never saw a sinker with a hole in the middle.

Sailor 2 Smells good, though. I'm giving one a taste!

Narrator 4 The watch had just ended and the galley filled with sailors.

Ship's Cook Sorry, men. Hanson got it into his head to change up the sinkers this morning.

Hanson Gregory Just give them a taste! Tell me what you think.

Sailor 1 and  
Sailor 2 (together) Aaaaahhhhhhhhhhh! These cakes are delightful!

Narrator 1 The cakes were brown,

Narrator 2 and sweet,

Narrator 3 and fully cooked.

Narrator 4 A new breakfast tradition was born!

Hanson Gregory Wait until I tell my mom about this!

Narrator 3 Then he formed balls of sweetened dough.

Narrator 4 Hanson laid the cakes out in rows on the dining room table.

Sailor 1 The lard, made from animal fat, is getting hot and bubbly.

Sailor 2 My stomach is starting to growl!

Ship's Cook Gregory, drop the first batch!

Hanson Gregory Coming right up!

Narrator 1 Hanson dropped the cakes into the bubbling lard.

Narrator 2 An iron railing kept the pot from sliding off the stove as the ship bucked and plunged through the sea.

Narrator 3 The delicious smell of browning sugar filled the galley.

Narrator 4 Hanson spooned the first cooked batch onto a platter.

Sailor 1 They look sweet and crispy, at least around the edges.

Sailor 2 Too bad the centers are still raw dough full of grease.

Narrator 1 As Hanson shaped another batch, he was struck by an idea.

Hanson Gregory Hey, I know how to fix these sinkers!

Narrator 2 He took the large metal lid off the pepper can.

# Thomaston Lanes

The regulation length of a bowling lane is 60 feet. Mark says the best tool to measure the length of a lane would be a ruler. Do you agree? Why or why not?

## *The Hole Story of the Doughnut*

A true story by Pat Miller

Characters: 16 year-old Hanson Gregory    ship's cook  
sailor 1    sailor 2  
narrator 1    narrator 2  
narrator 3    narrator 4

Narrator 1    In 1844, Hanson Gregory was just 13 when he went to sea.

Narrator 2    He left the family farm and became a cabin boy on a schooner.

Narrator 3    He quickly rose to cook's assistant and was put to work high in the rigging to work the sails.

Narrator 4    He did this for several years, until the fateful morning of June 22, 1847.

Ship's Cook    Look lively, Gregory. The men will be hungry when they come off the watch.

Hanson Gregory    I'm ready. I've already got the coffee on the stove and am starting to make the sinkers.

Sailor 1    Sinkers is what we call the heavy, oil-soaked pastry we have for breakfast most mornings.

Sailor 2    Those greasy things drop in the stomach like cannon balls!

Ship's Cook    That fire's not hot enough. Hand me more wood to toss into the stove.

Narrator 1    The pans in the galley (what they call the kitchen on a ship) clanged together as the ship rode the waves.

Narrator 2    Hanson mixed the ingredients together in a large bowl.

Reader's Theater offers an entertaining and engaging means of improving fluency and enhancing comprehension. The Reader's Theater Script is based on the history of the doughnut. There are multiple character parts that you can choose from. You can read for one character or read for many characters. Have fun with acting out the scenes or reading with an accent. Put your own personal flair to the words on the paper. Make the story come to life. Enjoy!

- 4 Marcus says the length of the stick is 3 feet. What did Marcus do wrong?

- A He measured in inches.
  - B He used the wrong side of the ruler.
  - C He didn't line up one end of the stick at 0.
  - D He should have used an inch ruler.
- 5 What is the actual length of the stick in feet?

- 6 Brian wants to measure the length of his bed in meters. He says the best tool to use is a ruler. Do you agree? Why or why not?
